RECENT PROJECTS

- ♦ [ProPair](#): Built in partnership with a Ruby on Rails Dev, ProPair is a hub for developers to post projects and pair program with anyone, anytime, anywhere. Built the front end with Backbone.
- ♦ [Concentration](#): Built using Backbone. The player needs to find 8 matching cards to win the game.
- ♦ [Form Validation](#): Built using Angular \$scope.\$watch to validate form while user is typing in content.
- ♦ [TransitApp](#): Built a TransitScreen-like app using WMATA and Capital Bikeshare API's. Built the front end using jQuery while a partner built the backend with Ruby & Sinatra.
- ♦ [Surf & Paddle](#): Convert mockup into a website using HTML and CSS

SKILLS

JavaScript, jQuery, HTML, CSS, LESS, handlebars, underscore, Backbone, Angular

EXPERIENCE

Freelance Front End Developer, Washington, DC area

August 2015 - Present

- ♦ Recent Project: CNVO - Worked in a team of three to create a Q&A message board using Angular and Angularfire. I worked on posting messages, answers, and upvotes with Angularfire's 3-way data binding to allow instant updates to the view. Also showed user's messages/answers on profile page.

THE CONTAINER STORE

Inventory Coordinator, Reston, VA

December 2014 - May 2015

- ♦ Audited customer orders and resolve discrepancies
- ♦ Lead new sales service to increase the average ticket by 2000% with 100% customer conversion
